All Trees / Shrubs are bare root conservation grade (6 to 10 inches) unless specified in individual description

### All Tree / Shrub Prices

[individual \$3.25] [Bundle of 5 - \$15.50] [Bundle of 25 - \$77.00] [Bundle of 50 - \$150.00]

Fruit trees, fruiting shrubs, roots, vines	Individual Price / Qty	Bundle of 5 Price / Qty	Bundle of 25 Price / Qty	Bundle of 50 Price / Qty	Subtotal
<b>Apricot, Hardy</b> - Mature height 12-16 ft Full sun & well drained soils - Edible fruit					\$
<b>Aronia berry (chokeberry)</b> - Mature height 5-8 ft adaptable to varying soils - Full sun - Edible fruit					\$
<b>Cherry, Nanking</b> - Mature height 6-10 ft - Prefers loamy soil - Needs 2 plants for pollination - Edible fruit					\$
<b>Cherry, Black</b> - Mature height 60-80ft - Deep well drained soil - Full sun - Edible fruit					\$
<b>Chokecherry, Common</b> - Mature height 12-25 ft Moderate drought tolerant - Needs 2 plants for pollination - Edible fruit					\$
<b>Chokecherry, Schubert</b> - Small color accent tree with deep purple leaf. Mature height 20-26 ft, adaptable to a wide variety of soils - Edible fruit					\$
<b>Crabapple, Dolgo</b> - Mature height 20-25ft - Medium moisture soil - Full sun - Edible fruit					\$
<b>Crabapple, Midwest</b> - Mature height 15-25 ft - Well drained soil - Full sun - Edible fruit					\$
<b>Crabapple, Red Splendor</b> - Mature height 15-25 ft - Well drained soil - Full sun - Edible fruit					\$
<b>Crabapple, Siberian</b> - Mature height 20-50 ft - Moist well drained soil - Full sun - Edible fruit					\$
<b>Currant, Black</b> - Mature height 6ft - prefer well drain but moisture-retentive soil - Edible fruit					\$
<b>Currant, Golden</b> - Mature height of 3-6 feet - Drought and saline tolerant - Edible fruit					\$

Fruit trees, fruiting shrubs, roots, vines	Individual Price / Qty	Bundle of 5 Price / Qty	Bundle of 25 Price / Qty	Bundle of 50 Price / Qty	Subtotal
<b>Elderberry, Common</b> - Mature height 6-10 ft - Moist fertile soil - Edible fruit					\$
<b>Hackberry</b> - Mature height 30-50ft - prefer moist well drained soil - Edible fruit					\$
<b>Highbush Cranberry, American</b> - Mature height 8-15ft - Does best in consistent moist well drained soil - Edible fruit					\$
<b>Honeylocust, Thornless</b> - Mature height 40-70ft - Good on all soils except gravelly or heavy clay soil - Edible fruit pods					\$
<b>Honeysuckle, Tatarian</b> - Mature height 6-10ft - Can grow in most conditions and soils - NOT edible fruit					\$
<b>Juneberry</b> - Mature height of 8-10 ft. Also known as serviceberry - Edible fruit					\$
<b>Mulberry Tree</b> - Mature height of 35-50ft - Prefer well drained soil drought tolerant - Edible fruit					\$
<b>Nannyberry Tree</b> - Mature height 10-18ft - prefer rich loam to clay loam soil - Edible fruit					\$
<b>Plum, American</b> - Mature height 8-12ft - Does well on most soils - Needs 2 plants for pollination - Edible fruit					\$
<b>Plum, American 3'-5'</b> - Mature height 8-12ft - Does well on most soils - Needs 2 plants for pollination - Edible fruit	* 3-5 foot bare root <b>\$9.00</b> each No bundle price				\$
<b>Plum, Bounty</b> - Mature height 15-18ft - Needs full sun and well-drained soil - Edible fruit					\$
<b>Plum, Prairie Red</b> - Mature height 8-12ft - Likes moist rich well drained soil - Edible fruit					\$
<b>Plum, Prairie Red 3'-5'</b> - Mature height 8-12ft - Likes moist rich well drained soil - Edible fruit	* 3-5 foot bare root <b>\$9.00</b> each No bundle price				\$
<b>Pear, McDermand</b> - Mature height 25-35ft - Needs 2 for pollination - Prefer well drained soils - Edible fruit					\$
<b>Grapes, Riverbank- Zone 3</b> - Can climb 20-30ft - Moist to dry rich soil is preferred - Edible fruit					\$
<b>Seaberry, Sea Buckthorn</b> - Mature height 6-13ft - Requires full sun - Prefer good drainage soil - Edible fruit					\$
<b>Silverberry, Wolfberry</b> - Mature height 3-12ft - Likes moist sandy and gravel soils - Edible fruit					\$
<b>Sumac, Skunkbush</b> - Mature height 2-8ft - Does ok on all soils - Edible fruit					\$
<b>Sumac, Smooth</b> - Mature height 10-15ft - Grows best in poor well drained soils - Red berry is Edible					\$

<b>Fruit trees, fruiting shrubs, roots, vines</b>	<b>Individual Price / Qty</b>	<b>Bundle of 5 Price / Qty</b>	<b>Bundle of 25 Price / Qty</b>	<b>Bundle of 50 Price / Qty</b>	<b>Subtotal</b>
<b>Sumac, Staghorn</b> - Mature height 15-30ft - Can grow in most soils - Edible fruit					\$
<b>Western Sandcherry</b> - Mature height 5-6ft - Prefers moist well drained soil - Edible fruit					\$
<b>Shrubs, Tall Trees, Small Trees, Edible Nut Trees</b>	<b>Individual Price / Qty</b>	<b>Bundle of 5 Price / Qty</b>	<b>Bundle of 25 Price / Qty</b>	<b>Bundle of 50 Price / Qty</b>	<b>Subtotal</b>
<b>Ash, Green</b> - Mature height 35-50ft - Tolerant of wet or dry soil conditions					\$
<b>Aspen, Quaking</b> - Mature height 40-50ft - Prefers sand to loam soils					\$
<b>Birch, River</b> - Mature height 60-80ft - Grow well in moist soils					\$
<b>Caragana</b> - Mature height 12-18ft - Can grow in most soils					\$
<b>Catalpa, Northern</b> - Mature height 40-60ft - Prefers deep moist non-flooded soils					\$
<b>Cotoneaster, Centennial</b> - Mature height 8-12ft - Grows best in moist moderately fertile well drained loams					\$
<b>Cotoneaster, Peking</b> - Mature height 5-7ft - Can grow in most soils					\$
<b>Cottonwood, Native 3'-5'</b> - Mature height 60-90ft - Loams to Sand are most favorable but can grow in most soils	* 3-5 foot bare root <b>\$9.00</b> each No bundle price				\$
<b>Cottonwood, Native</b> - Mature height 60-90ft - Loams to Sand are most favorable but can grow in most soils					\$
<b>Cottonwood, Native Male (cottonless)</b> - Mature height 60-90ft - Loams to Sand are most favorable but can grow in most soils					\$
<b>Cottonwood, Silver (White Poplar)</b> - Mature height 60-75ft - Prefers moist to well drained soil					\$
<b>Cottonwood, Siouxland</b> - Mature height 70-80ft - cottonless tree - Can grow in most soils					\$
<b>Cottonwood, Siouxland 3'-5'</b> - Mature height 70-80ft - cottonless tree - Can grow in most soils	* 3-5 foot bare root <b>\$9.00</b> each No bundle price				\$
<b>Dogwood, Redosier</b> - Mature height 7-10ft - Likes Moist well drained soils					\$
<b>Elm, American</b> - Mature height 60-80ft - Grows best on rich well drained loams					\$
<b>Elm, Siberian</b> - Mature height 30-60ft - Prefers well drained fertile soil					\$
<b>Hawthorn, Homestead</b> - Mature height 15-20ft - Prefers fast draining soils					\$

Shrubs, Tall Trees, Small Trees, Edible Nut Trees	Individual Price / Qty	Bundle of 5 Price / Qty	Bundle of 25 Price / Qty	Bundle of 50 Price / Qty	Subtotal
<b>Hawthorn, Roundleaf</b> - Mature height 6-18ft - Prefers moist to dry soils					\$
<b>Hazelnut, American</b> - Mature height 8-12ft - Prefers rich moist well drained soils - Edible Nut					\$
<b>Indigo, False</b> - Mature height 3-4ft - Tolerant in most well drained soil					\$
<b>Kentucky Coffeetree</b> - Mature height 60-75ft - Prefers full sun and rich soils - Edible seeds					\$
<b>Lilac, Common</b> - Mature height 12-15ft - Grow best in slightly alkaline moist well drained soil - Purple Flowering					\$
<b>Lilac, Little Leaf</b> - Mature height 6-9ft - Likes Full Sun grows best in average to medium moisture alkaline to neutral soils - Deep Pink Flowering					\$
<b>Lilac, Japanese Tree</b> - Mature height 20-30ft - Likes Chalk, Clay, Loam, and Sand soils - White flowering					\$
<b>Lilac, Pekin</b> - Mature height 18-24ft - Prefers loose well drained soil and full sun - Creamy White flowering					\$
<b>Lilac, Villosa</b> - Mature height 8-10ft - Prefers rich moist slightly aciidic soil - Mostly pink flowering					\$
<b>Lilac, White</b> - Mature height 12-15ft - Grows best in slightly alkaline, moist, well drained soil - White flowering					\$
<b>Linden, American</b> - Mature height 50-75ft - Fragrant flowers in June are cream yellow in color - Prefers a deep, moist, well drained soil, not drought tolerant.					\$
<b>Linden, American 3'-5'</b> - Mature height 50-75ft - Fragrant flowers in June are cream yellow in color - Prefers a deep, moist, well drained soil, not drought tolerant.	* 3-5 foot bare root <b>\$9.00</b> each No bundle price				\$
<b>Linden, Littleleaf</b> - Mature height 35-45ft - Suitable for farmstead and conservation plantings where moisture is adequate - Not drought tolerant					\$
<b>Maple, Amur</b> - Mature height 15-20ft - Noted for its attractive autumn color of yellow, orange, or red - Full sun - Produces Maple Syrup					\$
<b>Maple, Amur 3'-5'</b> - Mature height 15-20ft - Noted for its attractive autumn color of yellow, orange, or red - Full sun - Produces Maple Syrup	* 3-5 foot bare root <b>\$9.00</b> each No bundle price				\$
<b>Maple, River (Boxelder)</b> - Mature height 50-75ft - Can grow on almost all soils - Produces Maple Syrup					\$

Shrubs, Tall Trees, Small Trees, Edible Nut Trees	Individual Price / Qty	Bundle of 5 Price / Qty	Bundle of 25 Price / Qty	Bundle of 50 Price / Qty	Subtotal
<b>Maple, Silver</b> - (zone 4) – Mature height 40-60ft - Prefers a moist, well-drained soil - Drought intolerant - Produces Maple Syrup					\$
<b>Maple, Sugar</b> - Mature height 90-120ft - Grows on sandy soil, but does best on well drained loams - Produces Maple Syrup					\$
<b>Oak, Bur</b> - Mature height 40-60ft - Favors rich soils but can grow on other soils - Edible nut					\$
<b>Oak, Bur 3'-5'</b> - Mature height 40-60ft - Favors rich soils but can grow on other soils - Edible nut	* 3-5 foot bare root <b>\$9.00</b> each No bundle price				\$
<b>Oak, White Swamp</b> - Mature height 50-75ft - Best in moist well drained soil - Edible nut					\$
<b>Poplar, Hybrid</b> - Mature height 45-90ft - Adaptable to a wide range of soils					\$
<b>Poplar, Hybrid 3'-5'</b> - Mature height 45-90ft - Adaptable to a wide range of soils	* 3-5 foot bare root <b>\$9.00</b> each No bundle price				\$
<b>Poplar, Lombardy</b> - Mature height 40-60ft - Full sun in well drained acid or alkaline soil					\$
<b>Poplar, Lombardy 3'-5'</b> - Mature height 40-60ft - Full sun in well drained acid or alkaline soil	* 3-5 foot bare root <b>\$9.00</b> each No bundle price				\$
<b>Poplar, Prairie Sky</b> - Mature height 50-60ft - High tolerant to most soils					\$
<b>Poplar, Prairie Sky 3'-5'</b> - Mature height 50-60ft - High tolerant to most soils	* 3-5 foot bare root <b>\$9.00</b> each No bundle price				\$
<b>Poplar, White</b> - Mature height 60-100ft - Full sun and tolerates almost any soil					\$
<b>Walnut, Black</b> - Mature height 70-100ft - Deep well drained soil - Edible nut					\$
<b>Walnut, Black 3'-5'</b> - Mature height 70-100ft - Deep well drained soil - Edible nut	* 3-5 foot bare root <b>\$9.00</b> each No bundle price				\$
<b>Willow, Diamond</b> - Mature height 1-13ft - Grows best in moist soils					\$
<b>Willow, Golden</b> - Mature height 40-50ft - Grows best in deep moist loams					\$
<b>Willow, Golden 3'-5'</b> - Mature height 40-50ft - Grows best in deep moist loams	* 3-5 foot bare root <b>\$9.00</b> each No bundle price				\$
<b>Willow, Laurel</b> - Mature height 30-36ft - Tolerates alkaline soils and drought tolerant					\$
<b>Willow, Laurel 3'-5'</b> - Mature height 30-36ft - Tolerates alkaline soils and drought tolerant	* 3-5 foot bare root <b>\$9.00</b> each No bundle price				\$
<b>Willow, Peachleaf</b> - Mature height 35-40ft - Adaptable to most soils that are wet or damp					\$
<b>Willow, Sandbar</b> - Mature height 3-20ft - Best in full sun sandy stream and shoreline type soils					\$

Conifers	Individual Price / Qty	Bundle of 5 Price / Qty	Bundle of 25 Price / Qty	Bundle of 50 Price / Qty	Subtotal
<b>Austrian Pine</b> - Mature height 40-60ft - Growth rate 12-18 inch per year - Grows in acidic, alkaline, loamy, moist, sandy, well drained, and clay soil					\$
<b>Black Hills Spruce</b> - Mature height 50-70ft - Growth rate 6-12 inch per year - Grows in loamy sand through clay					\$
<b>Colorado Blue Spruce</b> - Mature height 75-100ft - Growth rate 6-12 inch per year - Adapts to any soil that is well drained					\$
<b>Eastern Red Cedar</b> - Mature height 30-90ft - Growth rate 12-24 inch per year - Will grow on alkaline or acidic soil ranging from dry rocky to wet swampy land					\$
<b>Meyer Spruce</b> - Mature height 40-50ft - Growth rate 6-12 inch per year - Prefers loose and well drained soils					\$
<b>Ponderosa Pine</b> - Mature height 90-200ft - Growth rate 12-24 inch per year - Grows best in deep well drained loam soils but will tolerate sandy soils					\$
<b>Rocky Mountain Juniper</b> - Mature height 20-30ft - Growth rate 8-12 inch per year - Prefers excessively well to well drained coarse to medium soil					\$
<b>Scotch Pine</b> - Mature height 50-70ft - Growth rate 12-24 inch per year - Prefers moist well drained soils					\$
<b>Conservation Grasses and Plants</b>	<b>Individual Price / Qty</b>				<b>Subtotal</b>
